

# Concord

3,095 square feet

Why not build the perfect home that showcases the beautiful views? With a stunning prow family room and a private screened porch, you can relax and enjoy the beauty of your vistas. The lovely front and back porches and deck let you wander outside for a quiet cup of tea, entertaining, or to hear the birds sing. The 3,095-square-foot Concord offers two bedrooms, including its luxurious master suite, and features a convenient mudroom, soaring cathedral ceiling, and loft. The large, upstairs den could be used as a third bedroom.
